

Script for Calling Lauren Boebert about H.J. Res. 139, and H.R. 7513

Hi, my name is [NAME] and I live in [CITY]. I'm a concerned [Republican/Independent] voter in [District Number].

I am calling to ask Lauren Boebert to protect the federal nursing home safe staffing rule by voting "no" on H.J. Res. 139, and H.R. 7513

I care about seniors and people with disabilities in nursing homes. They need and deserve quality care—which is only possible if we ensure safe staffing. I want to make sure my representative is siding with seniors over nursing home corporations.

Additional points to mention:

- Nursing home workers fought for and won the first-ever federal staffing standard to keep nursing home residents safe.
- The staffing rule is a critical first step toward addressing the care crisis in our nation's nursing homes.
- The minimum staffing rule would [save 13,000 lives annually](#). These are real people – like our parents and grandparents.
- Nursing home executives were paid nearly [\\$70 million in 2023](#). They can afford to invest in safe staffing for residents.
- Right now, seniors and people with disabilities in nursing homes across the country are waiting for hours to get out of bed, get dressed for the day, have their meal delivered or go to the bathroom.
- Nursing home residents deserve better. Please vote against any attempt to roll back the nursing home staffing rule.
